

## **Past Treads & Threads Beneficiaries**

### **Proceeds have:**

- Benefited the new Cambridge North Tower, a 124-bed inpatient facility, and the Breast Cancer Prevention Center.
- Supported surgical oncology at the future Cambridge North Tower and added lung cancer nursing staff.
- Enhanced access to genetic counseling, which is often crucial to determine the best clinical treatment options for patients.
- Created new palliative care suites serving patients and their families with terminal or advanced-stage cancer.
- Supported personalized care for cancer patients, including cell therapy, education, symptom management and survivorship programs.
- Expanded the lung cancer program, adding low-dose CT lung cancer screenings for high-risk patients and a dedicated nurse navigator to assist with screenings and related care.
- Educated thousands of cancer patients and families through the Brandmeyer Patient Resource Center and an inpatient resource center.
- Saved lives through new technologies to detect breast and prostate cancer.
- Renovated and enhanced patient waiting areas in radiation oncology.
- Provided inpatient palliative care suites to provide special comfort and resources to patients in the last stages of life and their loved ones.
- Established Missys' Boutique, an accredited cancer appearance center offering wigs, breast prostheses and more.
- Piloted outpatient palliative care services to help those with long-term illnesses enjoy the best possible quality of life.
- Supported clinical trials to provide more access to the latest potential treatment options.
